

Lord Machiventa Melchizedek- on the Final Discussion Group

A response from spirit is always there when needs abound for intervention – spiritual intervention, guidance and spontaneous response to humanities needs at a particular time. This discussion group was formed to aid in consciousness raising at a crucial time. We the Ascended Masters who do represent the Spiritual Hierarchy, say to you now thank you for following these discussions. **It is our hope you will formulate your own groups and using our subjects or topics, begin to transform energies world wide.**

We feel it time for this vessel to go in another direction, and so we have decided for now to close these discussion nights as all information needed is now set out before you so that you may begin your own groups. We have calculated all energies needed to be raised in preparation for Christ to come into His time of power, and ask all of you most humbly to continue these discussion nights on in your location.

Please begin your own discussion nights, put energies into the transformation of the mass consciousness. It is our sincere wish that you aspire to great heights, and to those who seek our help we are always willing to guide you with inspiration. Miracles happen when any two or more gather in God's name, and through love all things are possible.

We have found great leaps of consciousness since the initial discussion night, partly due to a few individuals who seek a better world and are prepared to work towards it. We saw a potential in all of you pulling together for the greater good, and inspiration comes through when inspired individuals seek to empower others with love.

My vessel is due to begin a new path, but for all of you who aspire to greatness, who see humanity as more than it is now we beseech you to try, invest energy in beginning your own discussion group. Tackle the hard subjects, give all you have to honoring truth, and know love will always flow freely from us to you. To those who have contributed their efforts in these discussion nights and in preparation of the words, and for meetings, we say a heart felt thank you. For those who see endings as sad or a failure see only that high success comes from joining together for the greater good.

It is our hope that your energies will be felt by us as you too work to ease the plight of humanity, so you feel that love flowing through you as truth sets you free. We, who have given our blessings for this discussion night to be opened in our name, say now a new course awaits this vessel, and we direct energies always to aid her and perpetuate her journey with others. Much has been said of content for this discussion group – trying, invigorating, and liberating to be set free from limitations. Know truth will always set you free. We thank you for following these discussion notes and the group findings, and invite you to stay watching . . . to evolve with this vessel when we reveal to her the new direction 'Goddess Awareness' will travel, always with us at her side. We ask you to join us in future when the time is right for the new direction to be revealed.

I Machiventa Melchizedek along with Isaac Newton, Leonardo da Vinci, Sandro Botticelli and the Ascended Masters all thank you, and bid you adieu for now only.

A new adventure begins!
